Overview

Prerequisites

Students must be enrolled in [PHYS 1000](#) (Physics for Life Sciences I) in the fall term, and [PHYS 1001](#) (Physics for Life Sciences II) in the winter term. Thus, see the prerequisites sections for those courses.

Dependent courses

Student Outcomes

Curriculum

Following is a list of the labs in the order in which they appear in the 2008/09 version of the PHYS 1000/1001 Laboratory Manual. The sequencing assures students will cover the material in class before the lab.

Suggested texts

There is just one: *PHYS 1000/1001 Laboratory Manual*, edition 2007–08, produced and sold by the Department of Astronomy and Physics, SMU.

Notes to the instructor
